Rural Development ~ People Making Things Happen

617 Comstock Rd., Suite 2
Berlin, Vermont 05602-8498
(802) 828-4595

December 2, 2009

Dear Board of Selectpersons, Town Clerks and Auditors:

On behalf of Northern Vermont Resource Conservation and Development (RC&D) Council, we hope this letter finds your community closing out a good 2009 and anticipating a hopeful 2010. We respectfully request your continued support by including an appropriation of \$75.00 in your 2010 Selectperson's budget. Being an organization with region-wide responsibility we are not able to petition each of the 113 towns within our area, so we ask that the small amount be included in the Selectboard's Budget.

The Northern Vermont Resource Conservation and Development Council is a 35 year old network of volunteers dedicated to identifying problems and designing solutions which fit the needs of its own communities. RC&D is a unique program that helps people care for and protect natural resources in a way that will improve the area's economy, environment and living standards. We serve our clients by coordinating and facilitating technical and financial assistance to local communities who initiate, sponsor, plan and implement projects.

Technical assistance through the RC&D is available, at no cost to the community. We would be happy to work with you on problems and challenges your community is facing and work together to find solutions. **We are glad to be a part of the Rural Fire Protection Dry Hydrant Grant Program, Better Backroads Grant Program and Natural Resources Education initiatives which have had significant impact on communities in Northern Vermont this past year.** Eligible projects cover many different areas including: community development; improvements to infrastructure and water quality; parks and recreation; and development of a diversified forest and agriculture industry. **The RC&D can also assist with finding financial resources and grant requests to carry out planned projects.**

Enclosed for reference and information is the Northern Vermont RC&D 2009 Annual Report which describes the organization and its accomplishments, and the 2010 Budget.

Please consider this letter your invoice and feel free to contact us with your ideas. By working together we can arrive at solutions which will continue to improve our communities! For more information please call us at (802) 828-4595 or email rcdbizmanager@yahoo.com.

Respectfully Submitted,

Jarrod Becker, Business Manager

Northern Vermont Resource Conservation and Development (RC&D) Council Report

The Northern Vermont Resource Conservation and Development Council (RC&D) helps to bring together the technical, financial and administrative resources for towns with natural resource conservation and rural and community development issues. We are here to serve your community. We coordinate and facilitate assistance to town governments, fire departments, watershed groups and nonprofit organizations in the eight counties of central and northern Vermont. By bringing together help from our extensive network of resources, we can focus technical and financial resources on your specific needs. We access technical assistance and some staff through the U.S. Department of Agriculture but private sources make up most of our budget. The Council is a self-supporting 501 (c) (3) nonprofit organization. In 2009, working with our partner towns and organizations, we secured and administered over \$655,763 for natural resource conservation, public safety, and community development projects.

Our current projects include rural fire protection through the dry hydrant grant program, northern forest canoe trail development, natural resources education through the High School Envirothon and 5th grade Vermont Forests Forever programs, watershed restoration work and roads management grants through the Better Backroads grant program. Do you have a project or program that could use some assistance to "make it happen"? Over the years the Northern Vermont RC&D Council has helped many communities and organizations on a variety of projects. We work on a request basis, so the first step is up to you, giving us a call. For information and free consultation call Beth Ann Finlay our RC&D Coordinator at (802) 828-4595.
