HomeOwnership Centers of Vermont

My Septic System  
Has Failed...  
Now What?

VERMONT HOME LOAN FUND

[www.vthomeownership.org](http://www.vthomeownership.org)

[www.vthomeownership.org](http://www.vthomeownership.org)

As of **July 1, 2007** all septic systems in Vermont fall under the jurisdiction of the Agency of Natural Resources. The Vermont Legislature passed this new requirement in 2002 to treat

all septic systems and water supplies consistently and to protect human health and the environment.

Owners of existing systems do not need a permit if there is nothing wrong with the septic system and no changes to the system are made.

All new septic systems and **replacement or modification of existing systems** require permits. The most common reason for modification or replacement is the failure of an existing one.

Dealing with a failed septic system can be time consuming and expensive. The State Agency of Natural Resources and Department of Housing and Community Affairs have made money available for loans to help affected homeowners. The NeighborWorks<sup>®</sup> HomeOwnership Centers of Vermont will use the following income ceilings to evaluate eligibility for a loan:

COUNTY	Maximum Income by Household Size	
	2 or fewer persons	3 or more persons
Addison	\$63,100	\$72,500
Bennington	\$62,100	\$74,100
Caledonia Essex Orleans Orange	\$67,500	\$75,000
Chittenden Franklin Grand Isle Lamoille Rutland Washington Windham	\$70,500	\$81,000
Windsor	\$62,600	\$71,900

[www.vthomeownership.org](http://www.vthomeownership.org)

## LET US HELP.

### STEP 1

Try to determine on your own if the problem can be fixed with a minor repair. Minor repairs do not require permits and include problems like running toilets, excess grease or chemicals going into the system or too many people using the system. Sometimes, the problem can be easy to fix.

If you think your system has failed, contact a licensed wastewater system designer or engineer. You can find one by calling 802-241-3822 and requesting a list of licensed designers. Or, visit: [www.anr.state.vt.us/dec/ww/ST/SiteTechList.pdf](http://www.anr.state.vt.us/dec/ww/ST/SiteTechList.pdf). The licensed designer or engineer will help you determine if your system is failed.

### STEP 2

If the licensed designer certifies that your septic system has failed and needs a major repair or replacement, you must get a permit and fix your system.

If you need to borrow money and you think your income is below the limits on the chart, **contact your local NeighborWorks<sup>®</sup> HomeOwnership Center on the back of this brochure.**

### STEP 3

Your regional NeighborWorks<sup>®</sup> HomeOwnership Center will send you an eligibility form. You must **return a completed eligibility form** before the Center can send you a loan application.

If you are approved for a loan, your regional HomeOwnership Center will guide you through the repair or replacement process, help you locate qualified septic system contractors, and will help coordinate required inspections and documents.
