To whom it may concern:

Washington County Mental Health Services (WCMHS) is a private non-profit organization that has provided services to communities since 1969. We provide mental health and developmental services and supports to adults and children throughout Washington County. We are office and community based so we will meet with people wherever they need services, whether it is in the schools, their homes, or our office locations. We also provide 24 hour emergency services. Almost 90% of our consumers receive care through Medicaid which does not cover the actual cost of the services. We are seeking additional funding in order to provide the care needed in our communities. We are requesting \$1600.00 to help us continue our work in the individual communities in Washington County.

WCMHS served 51 individuals from Waitsfield in FY 2015, with 1842 services units provided.

Thank you for your consideration. Please feel free to contact me for more information.

Sincerely,

Kirk Postlewaite
Grant Writing/PR Director
